

# **BINPAK®**

## **COMPACTORS**

*Safer • Simpler • Smarter*

### **BINPAK® Operating Instructions**

1. Green light on – enter your code into the keypad
2. BINPAK will run for a few seconds while compacting ram returns to home position
3. Open door and load
4. Press green button firmly and green light will flash
5. BINPAK is compacting while green light is flashing (1 minute)
6. When the green light is solid – load again (if required)

### **BINPAK® Troubleshooting**

1. Green light off – check power
2. Solid red light – close door firmly
3. Flashing red light – ensure e-stop is pulled out
4. Still not operating? Call for service.
